La Innocence, white	1.50	10.00
City of Harlem, yellow	1.50	10.00
Hyacinths, second or bedding size above varieties75	6.00

TULIPS

(Darwin Tulips Long Stems)

SPECIALLY CONCERNING TULIPS

We should like to lay particular stress on one point in connection with their cultivation. This is the importance of lifting and ripening the bulbs each season. Some bulbs do not mind being left in the ground from year to year. Many are all the better for such treatment. But tulips are invariably poorer if they are allowed to remain. They should be lifted when the leaves have turned yellow, and laid out on the dry surface of the soil. Do not lift them when the weather is wet. Above all, do not put them out on the soil surface on a hot day when the sun is too strong. Hundreds of dollars worth of tulips have before now been completely spoiled by being allowed to "bake" in too hot sunshine, when a little extra care would have saved them.

After lifting and drying, store the bulbs in a dry, cool, airy place until they are again wanted for planting. This will not be until the beginning of November, for unlike other bulbs, tulips do not gain by early planting. They are inclined to grow too quickly, and then to suffer from frosts, and for this reason planting is best delayed. When the bulbs are put in, be very careful to plant them deep enough. You can hardly plant too deeply—they are sometimes put as deep as fifteen inches without any harm resulting. If treated in accordance with these instructions, tulips will increase from year to year instead of deteriorating.

	Doz.	Hund.
Bartigon, dazzling scarlet	\$.75	\$ 4.50
Clara Butt, deep apple blossom, fine	.75	4.50
Farncomb Sanders, bright scarlet, large75	4.50

Per Thousand, \$27.50

Mayflowering Tulips

Gesneriana lutea golden yellow, large75	4.50
Fairy Queen, rose heliotrope, mar- gined yellow75	4.50
Moonlight, soft beautiful pure yel- low, very large75	4.50

Triumph Tulips

THE SENSATION OF THE LAST
FEW YEARS

Something Quite American

This is something exceptional. A new variety of tulips obtained by crossing single early varieties with Darwin tulips, in which the very best properties of both sorts are combined.

The flowers of these tulips are exceptionally large, twice as large as those of the largest Darwin tulips. The stalks are much stronger than Darwin tulips and can stand the strongest gusts of wind without experiencing even the slightest disadvantage. Added to this these tulips remain spotless even in the roughest weather, in contrast to the existing varieties of tulips, which in wind and hail-showers get spots on their leaves. In brief, you will have enormous success with these tulips, and those who have once had them in their gardens will buy them again year after year.

Algorab, reddish violet, robust wide cup.
Height 20 inches.

Boston, pinkish-lilac reflection, salmon-colored towards the edge, changing to bluish violet towards the base, inside pink with salmon-colored edge. Height 22 inches.

Chicago, brilliant carmine-red; inside of base
sallow bronze-green, loose form. Very large
flower. Height 20 inches.

Lord Carnevon, fuchsia-pink and variegated
white with white edge; base changing to
white. Long pointed cup. Height 22 inches.

Professor Nobel, purplish-garnet red, yellow
edge, very striking variety. Height 22 inches.

Tigrinum, fortunei, dark orange.....	.15	1.75
Regal, the best of them all, large bulbs50	5.00
Regal, medium bulbs35	3.50

Reminders for the Novice

Manure your soil adequately, but not at the time of planting. It injures bulbs, and sometimes sets up disease, to put them in contact with fresh manure.

Water indoor grown bulbs regularly. More bulbs are spoiled by faulty watering than by any other trouble.

Bonemeal is an excellent artificial manure for bulb gardens. Cow manure, very well decayed, used on sandy soil makes a good bed for bulbs.

Choose heavy, firm bulbs, in preference to large, soft ones.

PLANTS FOR HOME AND GARDEN

We have a great many new perennial and rock plants, many new varieties, also Greenhouse potted foliage and blooming plants. Ask for price list, or better still, visit our Nurseries and Greenhouses.
